HIPAA

HIPAA (The Health Insurance Portability and Accountability Act) is a regulation as to how private health information can be used.

The Health Information Technology for Economic and Clinical Health (HITECH) Act of 2009 considers the rapid expansion of technology used in healthcare and healthcare-related industries, builds upon lessons learned from the implementation of HIPAA, and promotes the use of health information technology in a controlled and secure way. It also sets guidelines around data breach notification requirements.

URS will assist the healthcare provider technical requirements of HIPAA/ HITECH compliance including HIPAA compliance training, compliance plans & policies plus a compliance task monitoring & tracking system so your business can progress to additional HIPAA compliance healthcare services.

- HIPAA audits – URS & our vetted partner prepares healthcare organizations for HIPAA audits plus assists the healthcare client as required to maintain compliance ongoing.
